1) Preamble

Sanskrit is an ancient and rich language. As the scientific study is achieving new goals or findings, Sanskrit is becoming more and more valuable. For example it is said by computer scientists that Panini the Sanskrit grammarian had written a computer program, at that time when people did not have any single thought of computers. So it is the responsibility of us to make students aware about the knowledge in Sanskrit and its relevance to modern days from the point of career building.

The syllabus is formed to make students know about the valuable literature and science in Sanskrit.

Syllabus of Sanskrit is as per UGC norms.

Following points have been taken into consideration while framing the syllabus.

1. Literary beauty and Philosophy go hand in hand in Sanskrit.
2. Nowadays Science in Sanskrit is very popular. So the Syllabus contains a useful part of Science in Sanskrit namely Jalashastra .
3. The glory and heritage of Ancient Indian Philosophy and Culture stated in poetic way in Sanskrit, which is known as Bhagavdgeeta; is introduced in this syllabus.
4. A special branch of Grammar exists in Sanskrit. It is introduced here.

2) Objectives of the Course

1. To introduce the Scientific knowledge in Sanskrit Language
