۹ جنوری ۲۰۲۳ء کو یونیورسٹی کی لائبریری میں مختلف کتابوں کا ذمہ دیکھا۔ تمام ترکیباتیں صفائی ہی ہنسی بلکہ کاٹ بھی ہیں۔ علمی لحاظ سے کوئی فروغ کے لیے نہ کیا۔ بس بہت ہی بخوبی سلسلہ کتابیں ہوتی ہیں۔

اسی اتناہی پر میں نے چند کتابوں کا سرسری مکالمہ کیا تو میں نے جانتا کہ یہ علمی دریا واقعیت و سچھتی۔ جس سے کوہرا باہم تلاش کرنا اپنے ہے کو نایاب کرنا صادراف ہے اور کتابیں صیغہ اور سربرہی و مضمون خیلی ہیں۔

I came to visit the KRC of our University. It was a great pleasure to visit the KRC.

I saw there are variety of books are available in various languages like English, Hindi, Marathi, Urdu, Kannada etc.

All books are provided with much of knowledge with nice information in simple language.

There are books which are enough for students for study. The staff of library is also co-operative.

I would like to say that the KRC of Solapur is really rich in various kinds of Books.

आज हम रुचालय में भेट करनप मात्रा थे।
हमने रुचालय में विभिन्न विद्यार्थी को लेकर
किताबें देखी। जिसमें भराणी, रिंदी, पाणी आदि
जैसे विद्यार्थी की किताबें पुस्तक मात्रा में देखी।
उसका अध्ययन किया। यहाँ पर हमे कही
किताबें जानवरी के दिखी।

रुचालय में बैठने की व्यवस्था
उचित तरह से की है। भौत यहाँ का

The activity of library visit is really good for students as well as teachers. In this covid-19 crisis I hope that they limited students visiting on separate dates. It creating the fun to read, helpful for understanding the reading habit and knowledge around us.

In this activity of search good books and read good thoughts for journonm.

This activity useful for thinking about future career and present situation.

I think the purpose of library is to develop the reading habit and to keeps great interest.

I hope all students enjoy this activity and they learn something New.

This type of activity exploring the thinking about knowledge, learning process and the future of career.

Library is the profit-making knowledge and knowledge is the power. Through this activity we all realize

Sub: Library Experience (Knowledge Resource Centre)
of PAHSU. KRC

Today, we visited, KRC as part of a brief sort of interaction as well as exposure with the following books. As we are going through a tough COVID time, the study resources were mainly focussed or received from online platform. However, the KRC of the University being a wonderful collection of rare books helped me to understand the concepts better, as these books, which I am mentioning below were not available in any of the online libraries I visited.

The first to mention will be the book titled 'Bagh Caves, Paintings and Sculptures' by Meena Talmi, Published by Buddhist World Press (2014). The book in detail describes the paintings of Bagh caves in details of the state M.P. The paintings were based on the Jataka stories, the miracle of the Buddha, many of the dance sequence in a palace, the procession of horse and elephants, Bodhisattva and many other motifs of animals and plants.

The second book was regarding

the 'Ajanta Paintings, Unidentified and Misinterpreted' by Meena Taliu by Buddhist World Press (2013). Various cave paintings (Murals) and line drawings were quite useful in understanding the subject. The author also pointed out her arguments in favour of some misunderstood paintings or misinterpreted paintings. The King Sibi Jataka and Sankhapala Jataka of Cave No 1 are otherwise not available pictorially were found from the book, so was the line drawings of Mahakapi Jataka and others. The evolution of Bodhisattva and Buddha were also quite useful.

Thus, - nevertheless to mention, the importance of library in a student's life is quite mesmerizing. The need to change the systems as per the evolving conditions is also important. More availability of e-Resources of the library might have helped students at the time of lockdown. However, the opening of the library following the requirements to keep away COVID virus is also praiseworthy, otherwise it would not have been possible for me to glimpse and go through the above books.

Human Resources

* Introduction :-

Planning process & implementation of development programmes is an information intensive task. The management of data as available in the village - block - district level is not properly geared to meet the information need of integrated development planning.

* Social indicators :-

Social indicators play an important role not only in the planning process of the state - district but also the implementation of the development programmes. Peoples involvement in the formation of the planning and participation in the implementation of programmes, will not only ensure successful complementation of the development programs.

but it will be an asset and tool for maintenance and sustainability of the completed programmes. In view of the above area, household, population, workers, education development and indicators have been analysed through data of developed maps through Geographic information system.

* GEOGRAPHICAL AREA:-

Geographical district Pratapgarh stretches about 115 km. from west to east and 40 km. north to south extending over an area of 3717 sq.km. Administratively district Pratapgarh comprises of 5 tehsils and 17 blocks.

171 Nyaya Panchayats and total villages of 1105 village panchayats. Pratapgarh district has cultural, religious and historical importance.

* POPULATION:-

Total population of Pratapgarh district is 27,31,174 comprising 1368226 female population and 1362948 male population. The literacy rate is 58.67% of Pratapgarh district. It is clear that Pratapgarh district are Patti.

Abstract:-

I am student School of Earth Science and my specialization subject is 'Applied Geology' and I was invited by knowledge resource center for reading activity on 21-12-2020 at 12:30 pm

Books:-

1] Economic Geology

Economic Mineral Deposits

- By Umeshwar Peacock

2] Sedimentary Petrology

- By Harry Blatt

3] Mineralogy

- By Perkins

Summary :-

I reached at library at 12:30 pm and I was introduced by Miss P.L. Sawant about details of activity. Then accordingly I followed the instruction and tried to gather as much information as I can in 2 hours.

I got almost all books according to my syllabus.

We arrived at 11:55 am & were instructed by Mrs. Dr T.H. Mujawar about details of the activity. Then accordingly we followed the instructions & selected 3 books for reference & tried together as much as we can in next 2 hrs. I personally referred following 3 books which are prescribed in syllabus. —

①

Digital signal processing by Thomas J. Chaviechi.

From this book I choose to read about signals & systems, complex variables of Z-transform, Taylor and Laurent series.

②

Microwave engineering — by Peter A. Pazzi.

In this book I took read about transmission Lines, Impedance matching

and two-port Networks, Reciprocal multipoint junctions, co-axial stripline.

3) Digital Signal processing → by Dr. Sanjay Sharma

This book is specially designed for Speech processing, Image processing, Telecommunications, Instrumentation Engineering, Control applications, Industrial applications, so we read it.

knowledge resource centre allowed us to study in Library after a long period of pandemic for short period of time. Although we got short time, we do thank them for allowing us to visit & read.

We arrived at 11:55 am & we were instructed by Mrs T. Mujawar mam about the details of whole activities. After that we followed the instruction & selected 3 books for reference. & tried to gather as much as one can in next 2 hours. I referred following 3 books as given per syllabus -

- 1) Microwave - By Peter A. Rizzi
 - From this book i preffered topics like. microwave transmission lines, coaxial & stripline components, microwave resonators & filters. I learnt little about how it works.
- 2) Digital signal processing - Thomas J. Cormen
 - Signal & Systems, transform Properties, Discrete - time processing with DFT.

3) Computer networking with Internet protocols & technology. - By William Stallings

- Data networks & the Internet, Protocols & the TCP/IP protocol suite, Traditional applications, Modern applications

Conclusion:

We got very nice time to study in library in this long period of pandemic. We gather as much information we can. I thank all of the teachers & library for helping us.

 - From this book I choose to read about Physics and Properties of semiconductors, JFETs, MESFETs and MODFETs, Tunnel devices & sensors.
- ② Concepts of Nuclear physics - By Bernard L. Cohen
 - From this book I choose to read about the Introduction of the nucleus, The nuclear force, Nuclear decay & Reaction process, Nuclear reactions.
- ③ Atomic and molecular Physics - By Raj Kumar
 - From this book I choose to read about the Atoms and molecules, Bohr's theory and spectrum of

hydrogen atom, Vector atom model, spectra of Alkali and alkaline elements, Raman spectra.

- ④ Introduction to solid state physics - By Charles Kittel.
- From this book I choose to read about the crystal structure, wave diffraction and the reciprocal lattice, crystal binding and elastic constants, Thermal properties

- ⑤ Physics of Materials - By Pratap Haridoss

- From this book I choose to read about the Properties of materials, thermal expansion, A Brief history of Quantum mechanics, Fermi-Dirac Statistics & the reciprocal space.

Firstly, we had come to library at '12:15' clock. First we issued the book 'Digital Fundamentals' of author J.T.L Floyd. It this book consist our syllabus core fundamental is present in this books. The 12th chapter is a floating chapter to provide optional coverage of IC technology.

2. Then I issued another book Analog & digital communication which is also part of my syllabus. In this book each chapter consist multiple choice question which is more useful for me.
3. Then I returned both books and issued another book 'Digital electronics' it consist 14 chapter out of them 2 are in our syllabus combinational circuit & sequential logic.
4. Then I took another book communication system of author Simon Haykin this book is about study of principles of communication theory as applied.
5. Digital communication book of author Ramkrishna Rao. I Read the basic elements & building blocks, that constitute a digital communication system.

- 3) Digital Fundamentals - Thomas L. Floyd
- 4) Communication systems - Simon Haykin
- 5) Introduction to Analog & digital communication - Simon Haykin, Michael Moher

I had come to library at 12:20pm. Then I issued & see reference books from library related to "Communication & Digital Electronics" paper.

The Books I issued are above written.

In above books, I learned / studied about Introduction to communication, need for modulation, Binary systems In communication systems, I studied. PAM, PPM, PWM & PCM

Thank you

- 1) Anjali Sanjaykumar Kore - Biochemistry
2) Kiran Pandurang Bandi - Spectroscopy
3) Shivani Ujwal Dixit - Pericyclic & Photochem
4) Sayli Suryakant Tupsakhare - Poly Heterocyclic
5) Ifat Tazeen Dafedar - Principles of Biochemis

1) My name is Anjali Sanjaykumar Kore.

Entry time :- 1:15 pm

Book Name:- Biochemistry by Jeremy M. Berg.

Points :-

- Carbohydrates

Proteins.

- Amino acids

- Nucleic acid.

sign. A.S.Kore

2) My Name : Kiran Pandurang Bandi

Entry time : 1:15 pm

Book Name : Introduction to spectroscopy - Pavia,

Points :

IR spectroscopy

^1H NMR, ^{13}C NMR

Mass spectroscopy

sign : - K.Pandi

3) My name :- Shivani Ujwal Dixit.

Entry time :- 1:15 pm

Book Name :- pericyclic & photochemistry

points :- FMO theory, Hückel-Möbius met

Woodward Hoffmann rule, co-selcted

Diagram, Molecular orbital diagram.

Electrocyclic Reacⁿ.

sign : - Dixit

4) Tupsakhare Sayli Suryakant -

Entry time - 1.15 pm

Book name - Heterocyclic by R.K. Bansale

Points - a) Five membered
b) Six membered.

sign. Tupsakhare 3

5) Ifat Tazeen Mohammed Ali Dafedary.

Entry time 1.15 pm

sign : - Ifat

BOOK NAME : Principles of Biochemistry.

Point a) Three-dimensional structure of protein.
b) protein sec-structure.
c) protein tertiary & quaternary structure

Books issued :

1) sayli suryakant Tupsakhare

2) pericyclic & photochemistry by → Jodamba Singh

3) Introduction to Spectroscopy by → Pavia, Lampman

Review :

safety

1) We received the book immediately with all safety pre-caut

2) social distancing is maintained
