

• Teaching Learning Management Policy

We have a separate teaching learning policy to expedite learning through facilitating the interactive learning.

- 1) The University has its own system to develop Participatory & Experiential teaching and learning process.
- 2) These methods have been propagated from 2018 by introducing new methodology of teaching learning through lectures and webinars.
- 3) Under FDP new learning methodologies are discussed to create the environment of the classroom from teacher to facilitator.

Objectives of the policy:

- 1) To create student friendly atmosphere in the class room.
- 2) A teacher should be facilitators for 50-60% course.
- 3) A student needs to participate share, listen, observe, etc. during the entire classroom teaching.
- 4) They should able to convert their own thoughts for better communication.
- 5) The Vocabulary understanding, confidence building, expressions etc. has to enhance to become quality learner and future development.
