INTRODUCTION

Former students or alumni of an institution can play an immensely positive role in higher education transformation. The alumni have the great potential to conduct fundraising. It has equally great ability to build a skills and knowledge sharing network. It is therefore strategic for institutions of higher learning to establish and maintain good relations with its alumni by inviting them in decision making, network building and development processes towards the overall advancement of any institution. Alumni also must be aware about their importance in higher education system. That is why IQAC and Alumni Association P.A.H. Solapur University had organized webinar on topic: Role of Alumni in higher education and way forward.

INTRODUCTION

COVID-19 has devastated communities and economies around the world and profoundly changed the ways in which we live and work. Many of those effects will no doubt prove to be temporary, but the pandemic has also created opportunities for us to build back better once the immediate threat recedes. While medical science has been front and center of the response to the virus itself, social science have a powerful role to play in our recovery from it. The social sciences don't produce life-saving vaccines. However, the analysis and insights they generate can and do underpin better-evidenced decisions and help guide and target insights from the 'natural' sciences. Social science can help policy-makers to develop solutions that people are able and, crucially, willing to follow through on. Work by social scientists on the effective, acceptable delivery of mass vaccination programmes highly relevant. Because they deal with important things about human behaviors, relationships, institutions and environment. Conference Concept Note Social sciences also have a role in ensuring that the voices of communities affected by COVID-19 optimally represented in discussions, forums and other public places and the relevant stakeholders are able to be involved in decisions that affect them. The social science demonstrate the importance of having local knowledge for effective dissemination of resources towards the stakeholder which the social sciences can provide. This capacity to support for inclusion is crucial to the work that lies ahead to rebuild things in the right way. A recent report by the Centre for Economic Performance and the Grantham Research Institute on Climate Change and the Environment emphasizes the importance of involving businesses and communities in developing a strategy for inclusive and sustainable recovery. A "better" post-recovery world will undoubtedly also benefit from the welldocumented contributions that social sciences make in areas such as improving the resilience of our democracies and financial systems, exposing and addressing social and economic inequalities, and promoting good mental health and more sustainable ways of living. To think on these many things Punyashlok Ahilyadevi Holkar Solapur University, Solapur, School of Social Sciences had organized One Day Online International Multidisciplinary Conference on the topic "Changing Contours of Social Sciences towards Post COVID -19".

SPEECHES

a) Prof. Dr.G.S.Kamble

Director

School of Social Sciences, PAHSUS

Summary: Prof. Dr. G.S. Kamble had highlighted the major objectives of this conference. He mentioned the profound positive changes within the school of social sciences are occurred from its establishment until now. University is doing many efforts under the guidance of Honorable Vice-chancellor Dr. Mrunalini Fadnavis to meet the global standards in higher education.

c) Dr. H.C. Tiago Soares

Researcher

University of Gutenberg, Sweden

Summary: Dr. H.C. Tiago Soares guided on the issues. He said that It is important to organize such international conferences on current issues. From such conferences, new aspects of research emerge. The purpose of the research will be achieved if the research conducted in different disciplines is implemented or used for the betterment of humankind. Primary data is important while researching the social sciences. So the more they are, the more accurate the research becomes. The field of research is constantly evolving. This matter is satisfactory. In the African continental country of Angola, underage girls are being forcibly trained in the military. Boys get out of it early but girls find it difficult to get out of it early. In the aftermath of Covid 19, all nations must work against evil tendencies in the world.

c) Prof. E. N. Ashokkumar

Rtd. Professor and Director,
School of Social Sciences, PAHSUS

Summary: Prof. E. N. Ashokkumar said Modern technology has made human life comfortable. Research plays an important role in this. Applied research needs to grow. The researcher should be honest about the research while doing the research work. We need to look at how research can benefit society. During the Covid-19 period, many complex problems have arisen and it is necessary to make a concerted effort at all levels to get out of it. Due to Covid-19, the health has deteriorated and social health also deteriorated. Everyone should work for a bright future by working on the mindset of the people.

d) Dr. Mrunalini Fadnavis

Hon. Vice-Chancellor, PAHSUS

Summary: In the presidential speech honorable Vice-Chancellor Dr. Mrunalini Fadnavis pointed that the Corona period has had a profound effect on all spheres, including social, economic, and educational. This epidemic has taught the world a new lesson. The purpose of this international conference is to conduct a critical study of the effects of this crisis on various sectors and to come up with some new findings. I think research on various topics will be useful for future solutions. Innovation in the field of research seems to be diversifying. This type of research will make it easier to deal with the post-Corona crisis, as researchers, we should try to maximize research that is useful to society.

TOTAL PARTICIPATION & FEEDBACK

Total 281 participants had registered for the conference and paper total 94 paper online presented in the conference. Participant attended this international conference from various states. We received total 179 feedback received from the participants. Total 148 paper published in UGC care listed journal.

OUTCOMES

- Dignitaries share insights on Covid-19 scenario and impacts on various global aspects.
- This conference contributed to expand awareness on the complexities of many issues raised during covid-19 period.
- This conference contributed to expand strategic planning in the post Covid-19 development.
