Prof. Prakash A. Mahanwar
Vice-Chancellor

Dear Students,

Greetings!

As the Vice-Chancellor of Punyashlok Ahilyadevi Holkar Solapur University, it gives me immense pleasure to address all of you and extend my warmest greetings.

First and foremost, I want to express my heartfelt appreciation for your unwavering commitment, tireless efforts, and relentless dedication towards your education. Your resilience and determination, especially in the face of adversities, have truly been commendable. I take immense pride in having such exceptional students as an integral part of our university.

Here at Punyashlok Ahilyadevi Holkar Solapur University, our core mission is to provide a nurturing and intellectually stimulating environment that empowers you to excel academically and flourish personally. We are dedicated to offering a comprehensive education that not only equips you with the necessary knowledge and skills but also molds you into competent professionals, responsible citizens, and future leaders.

I urge each and every one of you to seize the plethora of opportunities available at our university. Engage in active learning, immerse yourselves in co-curricular and extracurricular activities, and leverage the array of support services we offer. Explore your passions, push your boundaries, and embrace novel experiences that contribute to your holistic development.

As the Vice-Chancellor, I assure you of our unwavering commitment to upholding high academic standards and delivering quality education. We are continuously endeavouring to refine our teaching methodologies, enhance our infrastructure, and foster a dynamic and inclusive learning environment. Moreover, as we progress, Punyashlok Ahilyadevi Holkar Solapur University remains steadfast in aligning our academic endeavors with the vision and principles defined in the National Education

Policy (NEP - 2020), ensuring a holistic and learner-centric approach that prepares you for the ever-evolving global landscape.

I also want to underscore the significance of upholding discipline, integrity, and ethical values throughout your tenure at the university. Adhering to these principles will not only contribute to your personal development but also safeguard the reputation and integrity of our esteemed institution. Additionally, I encourage you to actively engage with our esteemed faculty members and seek their guidance and mentorship. They are ardent professionals who are deeply invested in your success and are here to support you every step of the way in your academic journey.

Lastly, I want to remind you that education is a lifelong journey, and your time at Punyashlok Ahilyadevi Holkar Solapur University marks just the inception of an extraordinary journey. Embrace the opportunities that come your way, confront challenges with fortitude, and strive for excellence in all your endeavors.

I extend my heartfelt wishes to each and every one of you for your academic pursuits and future endeavours. May your stay at our university be enriched with invaluable experiences, personal growth, and academic triumphs.

Warm regards,

Prof. Prakash A. Mahanwar
Vice-Chancellor,
Punyashlok Ahilyadevi Holkar Solapur University

Solapur - The Developing Smart City of Maharashtra

Solapur District was ruled by various dynasties such as Andhrabhratyas, Chalukayas, Rashtrakutas, Yadavas, Bahamanis and many others from the historical period to pre British time. It is the fourth large district in Maharashtra in terms of land area and seventh large in terms of population. Solapur is a melting pot or a confluence point of Marathi, Telugu and Kannada languages and cultures.

The district has many religious places like *Shri. Siddheshwar* temple in Solapur city. The “*Nandi Dhwaja*” procession on the day of *Makar Sankranti* is attended by millions of devotees. Pandharpur, the holiest place in Maharashtra, known as *Dakshin Kashi* with its “*Vitthal-Rukhumai*” temples on the banks of the *Chandrabhaga* River, is only 70 km from Solapur city. Akkalkot, just 38 km from Solapur is another holy place as it was the abode *Shri. Akkalkot Swami Samarth*. Similarly, the well known pilgrimage centre Tuljapur is 40 km away from Solapur city. Nannaj, 18 km from Solapur city is the habitat of an endangered avian species called ‘Maldhok’. During the Indian independence movement, the people of Solapur enjoyed full freedom on 9, 10 and 11 May 1930. Freedom Fighters of Solapur hoisted the national flag on the Municipal Council Building on 6 Apr. 1930. However, this resulted in the executions of Shri Mallappa Dhanshetti, Shri Kurban Hussain, Shri Jagannath Shinde and Shri Kisan Sarada, who were hanged to death on 12 January 1931. For that reason, the city is being recognized as “The City of Martyrs”. As a mark of respect to these freedom fighters their statues have been installed in the heart of the city.

In British India period, Solapur had famous textile industries. High quality Chaddars (Bedsheets or bed-covers) are made in Solapur, which have earned fame and reputation for the novel designs and durability. Solapur Chaddars and Towels are famous not only in India but also in other countries.

Solapur city has been selected under the scheme of Smart cities, Govt. India due to its strategic geographical position, cultural heritage, textile industries, educational initiatives, sports activities, agricultural productivities and connectivities, etc. In order to change the features of the city, massive infrastructure developments and reorganization of the city components have been initiated in recent times. This will enable the city as new hubs in several traditional and advanced avenues.

About Punyashlok Ahilyadevi Holkar Solapur University

Punyashlok Ahilyadevi Holkar Solapur University is a young state University of Maharashtra state, established on 1st August 2004. The Formation of the University at Solapur was a long cherished desire of the people of this region and the people of the district have an emotional attachment to the University since its inception. Earlier to the formation of University, Solapur city had a P. G. Center of Shivaji University, Kolhapur since 1984. The center for P. G. Studies had three postgraduate science departments housed in two buildings and a central Library building on its campus that spread over a total area of 37 acres. Seven postgraduate courses were offered in that P.G. centre.

Punyashlok Ahilyadevi Holkar Solapur University is now located on the outskirts of Solapur city about 10 km from the main city, on the national highway NH-09 towards Pune. The proximity with the national highway provides good connectivity. It is a matter of great pride that the university has made big strides within a short span. Nine new buildings, for School of Computational Sciences, School of Social Sciences, School of Earth Sciences, Central Instrumentation centre, Girls' hostel with an accommodation facility for 200 girls; Boys' hostel with accommodation for 100 boys, Rector's bungalow, University Guest House and VIP Bungalow are available in the campus.

The University is relentlessly putting its endeavors in enhancing the standards in teaching, research, extra-curricular and sports activities. The University has introduced new schools like School of Commerce and Management, School of Languages and Literature, School of Performing Arts and Fine Arts, School of Allied Health Sciences, School of Technology, School of Life Sciences and many new skill-based courses in recent times. At the same time, some of the existing courses are modified so as to strike the right balance between the theoretical and applied components in the curriculum. Bridge courses are initiated by the schools to admit students from other faculties to the mainstream courses. There is a strong research pursuance and publications carried out by each school. The University is committed to the all round developments of students. As a result, a number of students have been bringing laurels at the state and national youth festivals, sports and research events.

The University has been regularly organizing State level, inter University level and international seminars, conferences, sports and research events. The University has developed its sports facilities and health center in the extended campus. Construction of the new Administrative and examination building has started at the state Govt allocated approx. 500 acre land adjacent to the old campus. The installation of an impressive Horse riding statue of Punyashlok Ahilyadevi is in progress at the new campus too.

The School System

The University has adopted the school system and brought various departments under the umbrella of eleven schools. The basic motive behind the School concept is optimal utilization of manpower, infrastructure and other resources available with the University. The University Grants Commission has recommended the inception of the School System for institutes of higher learning to provide academic flexibility and horizontal mobility to the graduate and postgraduate students. Following are the schools and departments:

School of Chemical Sciences

Building admeasuring about 2054.63 sq. meter in built-up area. Well-furnished and equipped classrooms, laboratories, seminar hall and conference hall.

Background:

Chemistry Department was the first institute in Maharashtra to offer the M.Sc. course in Polymer Chemistry since, 1984. M. Sc. Industrial Chemistry course was started in 1997 followed by M. Sc. Organic Chemistry course in 2005 and recently, M.Sc. Medicinal Chemistry in June, 2019. All the courses are job oriented and applied courses.

Campus Interviews:

- Various companies viz. Kansai Nerolac Paints Ltd., Gharda Chemicals Ltd., Cipla Ltd., Smruthi Organics Ltd., Asian Paints Ltd., Life Line Industries Ltd., URDIP, Pune, Syngene International Ltd, A Biocon Company, Bangalore, Balaji Amines Ltd., Solapur, Vikalp Chemtech Pvt.Ltd. Solapur, Raichem Medicare Pvt. Ltd., Raichur etc are invited to hold campus interviews.
- Many of our M. Sc. (Polymer, Organic and Industrial Chemistry) students were awarded with fellowships from different agencies and got admission to Ph. D. / PDF (Post-doctoral Fellowship) courses in National Institute like, National Chemical Laboratory (NCL), Indian institute of science education and research (IISER), Indian Institute of Bangalore (IISC) and countries namely, U. K., Germany, Italy, Netherlands, USA, South Korea and Japan etc.
- Highest rate of Passing SET/NET/GATE examination. Nearly 65 Students till now have qualified the SET/ NET/ GATE examination studied in the School since 2010.
- Since 2010 students of our School are awarded with gold medals for holding a rank. As, three Gold Medals are kept reserved only for Chemistry Students.

- High number of students is doing Ph.D. under various research fellowships scheme like- DRF (Departmental research fellowship, UGC-CSIR, Moulana Azad fellowship, SAARTHI, BARTI, TRTI, and Mahajyoti Fellowships for Ph. D. students.

Courses Offered: The School of Chemical Sciences cater the needs of students who wish to pursue higher education to obtain M. Sc., M. Phil., and Ph. D. in the specializations shown below

Sr. No.	Name of the Specialization	Name of the Course	Intake capacity
1.	Polymer Chemistry	M. Sc. Chemistry (Polymer Chemistry)	20
2.	Industrial Chemistry	M. Sc. Chemistry (Industrial Chemistry)	25
3.	Organic Chemistry	M. Sc. Chemistry (Organic Chemistry)	40
4.	Medicinal Chemistry	M.Sc. Chemistry (Medicinal Chemistry)	20
5.	Skill Development Course (Analytical Chemistry)	<u>Six Months Certificate Course</u> Instrumental Methods of Analysis	100

Eligibility: Students with B.Sc. Chemistry (at Principal/ Subsidiary level) of any UGC recognized University is eligible. Preference will be given to the students with Chemistry as the principal subject.

- **Course Structure: w.e.f. June 2020-21**

M. Sc. – I - Common for All Specialization

(Polymer Chemistry, Industrial Chemistry, Organic Chemistry and Medicinal Chemistry)

Teaching Staff:

- The teaching faculty is highly qualified and well experienced.
- Some of the teachers have several years of postdoctoral research experience in countries like the USSR, Japan, USA and South Korea.

Sr. No.	Name	Designation
1.	Dr. Smt. A. S. Lawand	Associate Professor and Director

Visiting Faculty: Eminent Professors from National Institutes, CSIR Laboratories and other Universities are invited to enrich the academic perspective of the students.

❖ **Research Facilities:**

A) Major Areas of Research:

- Development of new synthetic methods, synthesis of bioactive molecules, medicinal chemistry, process development of fine chemicals, drugs / pharmaceuticals ingredients, Organometallic Chemistry, Green Chemistry, Supramolecular Chemistry
- Nanomaterial synthesis, their characterization and application as energy generation through Water splitting, and energy storage (supercapacitors & batteries)
- Polymer chemistry, polymer synthesis / modification, high temperature resistant polymers, phosphorus / fluorine containing monomers and polymers, utilization of natural resources – like CNSL, castor oil, cellulosic etc. Controlled drug delivery systems, liquid crystal polymers, functional polymers, polymer supported ligands, block and graft co-polymers, Photo responsive Monomers and Polymers, Photoresist Materials, Biodegradable Polymers, Polymers from renewable resources
- Solvent extraction and spectrophotometric study of metals

B) Research Activities:

- One International and two Indian patents are granted.
- Completed Research Projects: Seven major projects sponsored by DST-New Delhi, BRNS–Mumbai, UGC – New Delhi and ISRO.
- Two Major Research Project sanctioned by UGC, New Delhi.
- One minor Research project completed under seed money for Researcher scheme
- Published several research papers in National and International journals.
- So far, 15 students have obtained M. Phil. and 60 students have obtained Ph. D. degree.
- At present, Ten (16) Ph. D. and one Postdoctoral student are engaged in the research work.

Other Amenities to Students

- MoUs with Chemical, Pharmaceutical and Polymer Industries for On Job Training (OJT)
- Guest lecture Series on Subjects of specialization
- NET-SET Workshop
- Campus interview cell organize placement drive for students
- Interaction session organized for students with the scientist of National Research institute
- Sophisticated instrument facility, like- Electrochemical work station, Battery testing unit, Tubular Furnace, High Vacuum Pump, U.V. spectrometer, Distilled water Distillation Unit, Fume hood facility
- Industrial tour
- Separate Departmental Library

SCHOOL OF PHYSICAL SCIENCES

The School of Physical Sciences originated its present identity from the PG centre of Shivaji University, year back to 1984. The school has two departments (Physics and Electronics Science), where M.Sc and Ph.D. programs are conducted. The departments have well equipped instrumental laboratories conducive for imparting general and advanced knowledge in Material Science, Condensed Matter Physics, Applied Electronics and Electronic Science subjects. The school has a strong Alumni to elaborate its credentials; research projects; patents, linkages and contributions in the development of the university. The members of the teaching faculty are actively engaged in the research, administrative endeavours and

School of Earth Sciences

Background:

The inception of the School of Earth Sciences coincided with the establishment of Punyashlok Ahilyadevi Holkar Solapur University, Solapur during the year 2004, from its humble beginnings as a Postgraduate Centre offering M.Sc. in Applied Geology under the umbrella of Shivaji University, during 1984. Building upon the legacy of academic brilliance, the School of Earth Sciences was founded in 2008, with a vision to nurture young minds and empower them with the knowledge and skills to address contemporary challenges in Earth Sciences. Initially offering M.Sc. in Applied Geology, the school quickly expanded its horizons to meet the evolving needs of the industry and society. In line with this ethos, we introduced two additional pioneering programs: M.Sc. in Environmental Science and M.Sc. in Geoinformatics. Along with these school has introduced 6-month skill-based program Environmental Informatics during 2021. These programs were designed meticulously to provide students with a comprehensive understanding of Earth Sciences while equipping them with specialized expertise in their chosen field.

In line with our commitment to nurturing and celebrating exceptional achievements, we have instituted prestigious awards to recognize the outstanding performance of our students. We proudly award the Gold Medal for Excellence in Applied Geology, a distinguished honor bestowed upon the first ranker in the Applied Geology program. In recognition of the remarkable accomplishments of our female scholars in the field of Environmental Science, we are awarding the Gold Medal for Outstanding Achievement in Environmental Science among the Girl Student.

Vision & Mission:

Our vision at the School of Earth Sciences is to be a globally recognized center of excellence in Earth Sciences education, research, and innovation. We aspire to cultivate a dynamic academic environment that fosters interdisciplinary collaboration, pushes the boundaries of knowledge, and addresses the complex challenges facing our planet. Through our commitment to excellence, sustainability, and social responsibility, we envision a future where our graduates emerge as leaders and change-makers, equipped with the skills, knowledge, and ethical values to contribute meaningfully to the advancement of Earth Sciences and the well-being of society.

Our mission is empowering students with critical thinking skills and ethical values to address complex environmental and geological challenges. Conducting pioneering research to generate solutions for sustainable resource management, environmental conservation, and hazard mitigation. Collaborating with diverse stakeholders to promote environmental awareness and social responsibility. Cultivating a culture of inclusivity and diversity, ensuring equal opportunities for all to contribute to our collective understanding and stewardship of the mother Earth.

Courses Offered:

The School of Earth Sciences cater to the needs of students who wish to pursue higher education and obtain M.Sc., Ph.D and Skill Course in the specializations given below:

Our faculty comprises experienced academicians, researchers, and industry professionals with expertise across various domains of Earth Sciences. Faculty members are actively engaged in research, publication, and professional activities, enriching the academic experience with their diverse perspectives and insights. Their commitment to teaching excellence, mentorship, and student support fosters a nurturing learning environment conducive to academic success and personal growth. In order to support teaching – learning activities, a required number of additional contractual teachers are recruited. Visiting Faculty: Eminent Professors from National Institutes, other Universities, local colleges / institutions are invited to enrich the academic and research perspectives of the students.

Facilities and infrastructure:

The School of Earth Sciences is equipped with state-of-the-art facilities and infrastructure to support a comprehensive learning and research environment. Our modern facilities are designed to enhance student learning, facilitate innovative research, and promote interdisciplinary collaboration across various domains of Earth Sciences.

Laboratories:

Geology Laboratories:

Our geology laboratories are well-equipped with cutting-edge instruments and equipment for rock and mineral analysis, sedimentology, petrology, and structural geology. Students have access to microscopes, thin section preparation facilities, rock and mineral collections, and software for geological modelling and interpretation.

Environmental Science Laboratories:

These laboratories are dedicated to environmental monitoring, analysis, and assessment. They are equipped with instruments for water quality analysis, air quality monitoring, soil testing, and biodiversity assessment. Students gain hands-on experience in environmental

sampling, analysis, and data interpretation, preparing them for careers in environmental science and management.

Geoinformatics Laboratories: Our geoinformatics laboratories are equipped with advanced Geographic Information Systems (GIS) software, remote sensing tools, and spatial analysis platforms. Students learn to analyze geospatial data, create digital maps, and develop spatial models for various applications such as urban planning, natural resource management, and disaster response.

Sophisticated Instruments:

- Mineralogical, Petrological and Paleontological microscopes.
- Heating-Freezing stage in Geothermometric Laboratory, Isodynamic separator
- Instruments for groundwater exploration, Remote sensing & GIS laboratory
- Multi-parameter Analysis Kit, Signal Stacking Resistivity Meter, Total station
- Ground Penetrating Radar System (GPRS), LCD Projectors and smart classroom facilities
- State of art photographic equipment for field and laboratory studies
- Multispectral Satellite data for the State of Maharashtra.
- Specialized software for various applications on GIS platform, Lab for environmental studies consisting of geophysical and geo-chemical infrastructure with related equipment

ResearchFacilities:

The School of Earth Sciences at Panyashlok Ahilyadevi Holkar Solapur University encompasses a diverse range of research areas, reflecting the multifaceted nature of Earth Sciences and the interdisciplinary approach adopted by our faculty and researchers. Some major research areas include:

Geological Studies:

- *Structural Geology and Tectonics:* Understanding the deformation processes and structural evolution of Earth's crust through field mapping, structural analysis, and geophysical surveys.
- *Petrology and Geochemistry:* Investigating the origin, composition, and evolution of rocks and minerals through petrographic analysis, geochemical modeling, and isotopic studies.
- *Sedimentology and Stratigraphy:* Reconstructing past environments and interpreting Earth's history through the study of sedimentary rocks, depositional environments, and sequence stratigraphy.

Environmental Science:

- *Pollution Monitoring and Remediation:* Assessing the impact of pollutants on air, water, and soil quality and developing strategies for pollution control and remediation.

- *Ecosystem Dynamics and Conservation*: Investigating biodiversity patterns, ecological processes, and habitat conservation strategies to promote sustainable ecosystem management and biodiversity conservation.
- *Climate Change and Adaptation*: Studying the drivers and impacts of climate change on regional and global scales and developing adaptation strategies to mitigate its effects on natural and human systems.

Geoinformatics and Remote Sensing:

- *Geographic Information Systems (GIS) and Spatial Analysis*: Utilizing GIS software and spatial analysis techniques to analyze spatial data, create digital maps, and model geospatial phenomena for applications in urban planning, resource management, and disaster response.
- *Remote Sensing and Image Analysis*: Using satellite and aerial imagery to monitor land use/land cover changes, assess environmental conditions, and detect natural hazards such as wildfires, floods, and landslides.

Hydrogeology and Water Resources:

- *Groundwater Exploration and Management*: Investigating groundwater resources, aquifer properties, and groundwater-surface water interactions to develop sustainable groundwater management strategies.
- *Hydrological Modeling and Water Quality Assessment*: Modeling hydrological processes, assessing water quality parameters, and predicting the impacts of land use changes and climate variability on water resources.

Natural Hazards and Risk Assessment:

- *Seismology and Earthquake Hazard Assessment*: Monitoring seismic activity, characterizing earthquake sources, and assessing seismic hazards to inform earthquake-resistant construction practices and emergency preparedness.

Landslide and Coastal Hazard Management:

- Mapping landslide-prone areas, analyzing slope stability, and developing mitigation measures to reduce the risk of landslides and coastal erosion.

Research Activities:

- Number of sponsored research projects completed: 06
- Research Innovative Project University Sponsored : 03 (working)
- Ph.D.:34Studentsawardedand25StudentsWorking presently

School of Computational Sciences

The School of Computational Sciences started with M.C.A. program in 1998 at the previous PG Center. Later on, M. Sc. (Computer Science), M. Sc. (Mathematics), M. Sc. (Statistics) and M.Sc. (Biostatistics) courses were started in the School. The academic building is architecturally eye-catching and houses four different departments. The class rooms and laboratories are very well equipped with smart boards, LCDs and advanced configuration computers for teaching – learning and research. School of Performing Arts and Fine Arts

Background

The School of Performing Arts and Fine arts is established in 2019 in the Punyashlok Ahilyadevi Holkar, Solapur University, Solapur. Solapur is one of the important cosmopolitan cities on the borders of Maharashtra state. It has a substantial population of Kannada and Telugu speaking people in addition to its state language Marathi. Even within Maharashtra also it is known as the gateway of Marathwada. The traditional Weavers community is mostly Telugu origin whereas the Kannadigas are traders. In addition, there are many other communities migrated from other parts of the country and it makes altogether a different mix of cultures. The district is known as the land of saints. Millions of Warkaris visit Pandharpur in a year. The Mridanga and Taal are important musical instruments they use to recite devotional songs/Abhang. People here love music and other performing and fine arts. Many artists from Solapur in the field of Dramatics, Classical Vocal/Instrumental Music have achieved commanding heights and many more are eager to make their career in these fields. It was the need of the hour which was realized by our Hon. Vice - Chancellor Dr. Mrinalini Fadanavis and she decided to open these avenues of career for the students.

The school of performing arts offers 2 years full time comprehensive masters degree courses in classical vocal music, percussion instruments like Tabla / Pakhawaj and Dramatics. The goal is to train students to develop their creative talent and abilities thereby attaining a systemic understanding of the art and science of performing arts and its aesthetic applications. To prepare students to explore opportunities in the field of performing arts and fine arts. Teachers are also encouraged continuously to participate in seminars, workshops,

competitions and cultural programs and such interactive programs. The objective of the music training and education imparted in the faculty of performing arts is to make the students all-round musician and performer, aware of the various concepts and issues involved. The faculties and students are striving hard to make it a center of excellence.
