Course Preamble:

The Health, Wellness, and Fitness program combines theoretical and practical knowledge to promote mental health and physical fitness. It emphasizes stress-relief techniques, injury prevention, advanced exercises, and wellness practices, integrating modern fitness technology to foster holistic well-being.

Course Objective:

Upon completing this Health, Wellness, and Fitness course, students will be able to:

1. To understand the concept of mental health and stress-relief techniques.
2. To explore fitness apps and devices for maintaining health and wellness.
3. To recognize common exercise-related injuries and learn preventive measures.
4. To develop proficiency in advanced exercises and wellness practices, including yoga and breathing techniques.

Course Outcome

By the end of this course, students will be able to:

1. Explain the concepts of mental health and implement stress-relief practices.
2. Effectively use fitness technology for tracking and improving health.
3. Identify and mitigate common exercise-related injuries through preventive strategies and basic first aid.
4. Demonstrate advanced exercises, yoga asanas, and breathing techniques for enhanced fitness and well-being.

Program Outcomes

Upon completing the Health, Wellness, and Fitness program, students will:

1. Promote Mental Wellness: Incorporate stress-relief techniques like meditation and deep breathing into daily routines.
2. Utilize Fitness Tools: Leverage technology, including apps and devices, to monitor and optimize fitness goals.
3. Ensure Safety: Apply knowledge of injury prevention and first aid to ensure safe exercise practices.
4. Exhibit Practical Skills: Perform advanced exercises, yoga, and wellness practices effectively for a balanced lifestyle.
